Leverage the latest Italian technology and employ high-tech automated machinery that complies with international standards. With our dedicated and skilled workforce tirelessly pursuing our most challenging objectives, can ensure that both our products and client relationships consistently maintain high quality and long-lasting durability.

INTRODUCING

Granotech

INSPIRED BY NATURE

INSPIRED BY NATURE, PERFECTED BY DESIGN

Granotech is a special collection of vitrified tiles manufactured by Exotica Tiles, inspired by the natural beauty of granite surfaces. These tiles are designed to replicate the elegance and sophistication of granite while offering the practical benefits of vitrified tiles.

Key features of the Granotech collection include:

Aesthetic Appeal: Granotech tiles capture the unique patterns, textures, and color variations found in natural granite, providing spaces with a luxurious and timeless look.

Durability: Built to withstand high traffic areas and heavy use, Granotech tiles are highly durable and resistant to scratches, stains, and moisture, making them suitable for both residential and commercial applications.

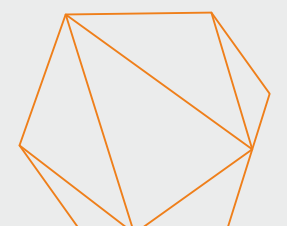

Versatility: Available in a variety of sizes, colors, and finishes, Granotech tiles offer versatility in design, allowing for creative and customizable installations in kitchens, bathrooms, living rooms, outdoor spaces, and more.

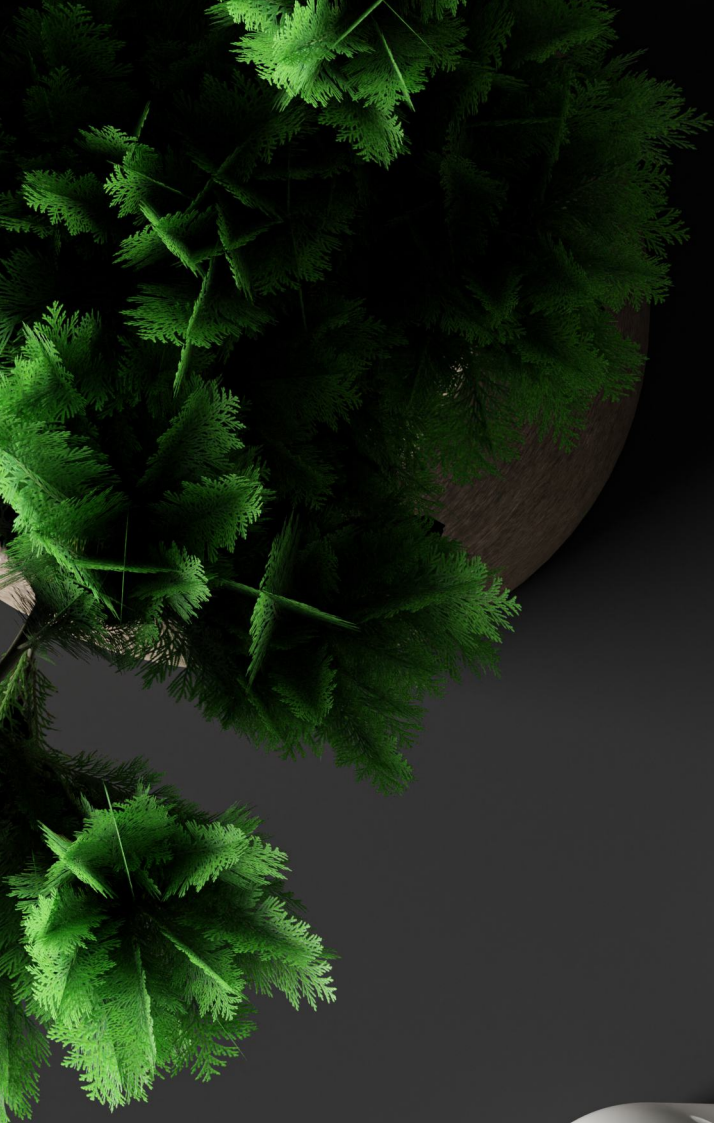

Low Maintenance: Unlike natural granite, Granotech tiles require minimal maintenance and are easy to clean and maintain, making them an ideal choice for busy households and commercial spaces.

Consistency: Unlike natural granite, where each slab may vary in appearance, Granotech tiles offer consistency in color and pattern, ensuring uniformity across installations.
